

SENATOR PREISTER: Only with their approval.

SPEAKER WITHEM: Only with their approval or absent their disapproval might be a technically more correct way of saying.

SENATOR PREISTER: Okay, and so that would apply also in the case if land were in Bellevue and Omaha chose to do a project there, that would also be the case, they would have to have the opinion of the City of Bellevue?

SPEAKER WITHEM: Not the opinion. They would have to notify the City of Bellevue. The City of Bellevue would have a certain opportunity to object and if they would object, it could not be done. Yeah, Bill is saying you asked about in the city, that would be applicable within three miles of the city also, the zoning jurisdiction.

SENATOR PREISTER: The zoning jurisdiction?

SPEAKER WITHEM: Yeah, right.

SENATOR PREISTER: Okay, so in the city or the case of the county, either one even across county lines they would have to have the authority and they would have to apply to the county or to the city.

SPEAKER WITHEM: Yeah, but again, and it's a technicality, but I don't want to get caught on it, that if the county or city does nothing, then I believe it would be deemed to be acceptable. So they have to take an affirmative action of rejection as opposed to having taken affirmative action...to keep it from happening they have to take an affirmative action of rejecting it as opposed to allowing it to happen that they would have to approve it. So it's...

SENATOR PREISTER: Okay, I think you've answered my question. And with the remainder of my time if he chooses to use it, I would yield to Senator Chambers.

SENATOR CROSBY: Senator Chambers, you have about two minutes and ten seconds.

SENATOR CHAMBERS: Thank you, and, Madam President, what I may do, and, Senator Withem, again not to unduly delay the bill, I may offer a motion so that...and that may be quicker than me
